HAVERHILL, N. H., February 18, 1911.

REPORT OF SELECTMEN.

To the Taxpayers of the Town of Haverhill:

The selectmen submit herewith their annual report containing a statement of their doings and expenditures during the year ending February 15, 1911:

It is worthy of your notice that the town has increased in valuation from \$1,597,670 in April, 1909, to \$1,659,821 in April, 1910. This amount is exclusive of soldiers' exemption. Considering the fact that there is necessarily a considerable loss to the town every year from the selling and shipping away of timber and the depreciation in value of buildings from fire and the action of the elements, this annual gain in valuation would seem to indicate a condition of prosperity and growth throughout the town.

You will note that the highway expenditures are considerably in excess of the appropriation. This is mainly owing to the destructive storm in August which rendered many roads in the southern and eastern parts of the town impassible or highly dangerous. A new wooden bridge has been built at East Haverhill depot, and an unusually large amount of railing has been built by the road agent. The balance of the one-tenth of one per cent. set aside by law has been expended in Woodsville precinct, and the permanent highway has been continued southward about one and one half miles from the point where it was discontinued two years ago. There is in the town and state treasury the sum of \$1,199.68 which is credited to the joint highway fund of Haverhill.

Some inquiry has been made as to the division of the different school funds. The state school fund is divided between the two school districts by the state superintendent of public instruction, as is also the literary fund. The

balance of the dog license fund is divided upon the basis of valuation, and the Southard fund by the scholar.

Some comment and inquiry has also been made as to the disposition of the various funds committed in trust to the town and reported in the latter part of this report. As stated in the note accompanying the report, these funds, with the exception of a part of the Southard fund, are deposited in Woodsville Guaranty Savings Bank. Four City of Laconia bonds having a par value of \$1,000 each, and bearing interest at 4 per cent., were purchased with the Southard fund of \$5,000 at a premium of $110\frac{1}{2}$, or a total of \$4,420. The accrued interest of \$32.89 was also paid, leaving a balance of \$547.11, which amount was deposited in Woodsville Savings Bank.

The \$3,000 voted by you at the March meeting for the payment of the three bonds maturing December 1, 1910, have been paid the treasurer for that purpose, and the interest on all the bonds has been paid up to that date. The bonded debt of the town is now \$21,000, and the net debt is \$19,739.73, a reduction of \$4,771.26 during the past year.

An error in the division of the highway appropriation whereby Woodsville Fire District was given thirteen cents over its actual share in the appropriation has been made by the secretary of the board.

This report includes the tables of Vital Statistics prepared by the town clerk. Also the reports of the treasurer, library trustees and police court.

The tax rate in Woodsville was \$2.68; in Haverhill precinct, \$2.40, and in the town, \$2.08.

Following is the report in detail:

The sum of \$278 has been received for fines and costs during the year and the same has been paid to the town treasurer.

Respectfully submitted,

DEXTER D. DOW,

Justice Haverhill Police Court.

To the taxpayers of the Town of Haverhill:

Your auditors have examined the books and accounts of the Town Treasurer, Road Agents and Selectmen. The correctness of these accounts is vouched for in the printing of this report, final approval of which we have passed upon.

Our recommendations are as follows:—

Town Road Agents' accounts should be itemized as to time, rate and total amount of labor and teams, and other details of expenditure in place of reporting lump sums paid, as in some instances.

Town officers' reports should be itemized and more closely classified than formerly.

We recommend the opening of a trust fund account, in which will separately be displayed receipts and disbursements of all incomes of trust funds.

Some form of duplicate receipt blanks should be employed covering monies paid into the hands of town officials, so that a check may be employed upon receipts, same as now employed upon disbursements.

A correction of the Southard fund account is necessary. As explained in the selectmen's report Laconia bonds were bought at 110 1-2. Today, by reason of shorter term, these bonds are not listed as high. In place of using the entire annual income from these bonds amounting to \$160.00, a portion amounting to \$28.30 should each year have been deducted from the income and not used, but applied to the bank account of the Southard fund, so that when the bonds mature in five years at par, the fund of \$4,000 on the bonds and of \$1,000 bank account would be intact. It is, therefore, recommended that a sum of \$84.99 be deducted from the yearly income of this year from the fund to keep it intact. For the first eight years since the purchase an annual reserve of \$28.30 was made; for three years this

has been overlooked and to provide for this the amount of \$84.99 must be deducted from the interest upon the bonds.

In our presence and that of the town treasurer, bonds Nos. 34, 35 and 36 were destroyed, and outstanding coupons of the past year, except two coupons for \$10.00 each, money for which is upon deposit at Woodsville Bank.

We believe a special effort should be made to collect taxes due upon leased lands and in the next annual report a list and amount of these taxes be rendered.

Respectfully submitted.

F. T. REYNOLDS,

W. F. EASTMAN,

H. E. SMITH,

Auditors.
